Annual Benefit Report
of
Wrftware
A Minnesota General Public Benefit Corporation

March 15th, 2020

Wrffware was incorporated on August 29th, 2018 as a General Benefit Corporation under Minnesota's Public Benefit Corporation Act (the "Act"). Pursuant to Section 304A.101 of the Act, Wrffware's general public benefit purpose as stated in its Articles of Incorporation is:

to pursue a net material positive impact from the business and operations of a general benefit corporation on society, the environment, and the well-being of present and future generations.

Throughout this report, *Wrffware GBC* will be referred to as *Wrffware* or may refer to itself as "we", or "our" or "us."

Our Board of Directors has selected the following independent third-party standard:

Ceres Roadmap to Sustainability

In accordance with this third-party standard, *Wrffware* has done the following to pursue a general public benefit:

Wrffware has pursued to benefit the general public with its consideration of materials and designs of multiple consumer electronic hardware devices. These products are still in early development, provisional patent materials are still being put together. These Internet of Things (IoT) devices will record and share data from different Earth environments to assist with weather forecasts and environmental reporting. It is important these devices are manufactured without conflict minerals and are designed to be a part of the circular economy with recyclable parts, as such we have made Ceres Roadmap to Sustainability an integral part of our method.

In accordance with this third-party standard, *Wrffware* has created the following general public benefit:

Wrffware has not yet prototyped nor manufactured any parts. As such, no tangible general public benefits have been created.

The following circumstances hindered *Wrffware's* efforts to pursue or create a general public benefit:

Wrffware does not have any revenue, has not yet hired any individuals, nor has it begun production of any devices to date. As such, Wrffware's only actions have been designing devices and drafting provisional patent documents. Due to financial constraints, Wrffware's efforts to create a general public benefit have been minimal to non-existent.

Our board of directors used the following process to choose our enumerated third-party standard:

Wrffware's board of directors reviewed and researched several different third-party standards such as Green Seal, B Lab, Global Reporting Initiative, Green America and Ceres Roadmap to Sustainability. Green Seal was removed from consideration as their focus

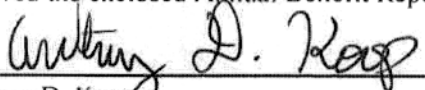

centers on cleaning products and services. B Lab was decided against because of their wide and broad focus. GRI and Green America also didn't seem focused or appropriate for an American hardware company.

And determined to use this third-party standard because:

After reviewing a variety of third-party standards, the board of directors determined Ceres Roadmap to Sustainability approach most relatable and their values most aligned with the future Wrftware would like to create. The materials and information presented by Ceres is: relevant to a hardware focused benefit corporation, easy to digest, and forward thinking.

CERTIFICATION BY THE BOARD OF DIRECTORS

The undersigned, being all the directors of *Wrftware GBC*, hereby acknowledge and certify: (1) we have chosen the third-party standard designated in this Annual Report; (2) we have determined that the organization that promulgated this third-party standard is independent; and (3) we have reviewed and approved the enclosed Annual Benefit Report.
