

Office of the Minnesota Secretary of State  
Minnesota Public Benefit Corporation / Annual Benefit Report  
Minnesota Statutes, Chapter 304A

Read the instructions before completing this form  
Must be filed by March 31  
Filing Fee: \$55 for expedited service in-person, \$35 if submitted by mail

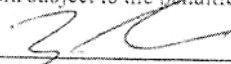

The Annual Benefit Report covers the 12 month period ending on December 31 of the previous year.  
Notice: Failure to file this form by March 31 of this year will result in the revocation of the corporation's public benefit status without further notice from the Secretary of State, pursuant to Minnesota Statutes, Section 304A.301

1. Corporate Name: (Required) EarthScout, GBC
2. The public benefit corporation's board of directors has reviewed and approved this report.
3. In the field below, enter the information required by section 304A.301 subd. 2 or 3 for the period covered by this report, (see instructions for further information); Note: Use additional sheets if needed. (Required)

Pursuant to Minn.Stat. 304A.301Subd.3, Earth Scout's Board has approved the "B Impact Assessment" as its independent third-party standard measure of benefit impact, completed said assessment, and approved its report.

Please see attached report for further details.

4. I, the undersigned, certify that I am the chief executive officer of this public benefit corporation. I further certify that I have signed this document no more than 30 days before the document is delivered to the secretary of state for filing, and that this document is current when signed. I further certify that I have completed all required fields, and that the information in this document is true and correct and in compliance with the applicable chapter of Minnesota Statutes. I understand that by signing this document I am subject to the penalties of perjury as set forth in Section 609.48 as if I had signed this document under oath.

  
Signature of Public Benefit Corporation's Chief Executive Officer

April 5, 2021  
Date (Must be dated within 30 days before the report is delivered to the Secretary of State for Filing)

Entities that own, lease, or have any financial interest in agricultural land or land capable of being farmed must register with the MN Dept. of Agriculture's Corporate Farm Program.

Does this entity own, lease, or have any financial interest in agricultural land or land capable of being farmed?  
 No

## EarthScout® General Benefit Corporation (GBC) Annual Benefit Report 2021

EarthScout® is a global company with Minnesota roots in the heartland of agriculture and our products are proudly manufactured in the USA. We employ international experts who share a passion for service and innovation.

**Our Mission:** We are growers helping growers develop smart, industrial grade tools for gathering useful, grower owned data. We help growers optimize growth, reduce inputs, conserve resources and build living soils for a stronger, healthier future.

**Our Vision:** To create the world's premier community of science-minded growers dedicated to advancing living soils and sustainable agriculture via the most elegant and robust Internet of Things (IoT) platform that promotes collaboration, education and applied data analytics.

**Our Values:** With respect for our people, our community, or our standards, we take the long view in everything we do, always thinking about well-being and sustainability.

### Our History:

- Design Ready Controls (DRC) is a manufacturer of electrical control panels and wire harnesses with 500 employees; DRC builds over 50,000 panels and harnesses per year at locations in MN, OR, OK, and VA; DRC employs 50+ electrical, mechanical and computer engineers.
- In 2015 while looking for a new product brand, DRC started developing an Internet Of Things (IOT) device for the precision Ag market and EarthScout® was born - a revolutionary technology for measuring real-time growing conditions, 24/7—above *and* below the ground. Sensors capture multiple data points – in the soil and within the local growing environment – giving up-to-the minute field information between zones. Data is wirelessly communicated back to the grower's smartphone or desktop computer through an intuitive interface.
- In 2017 DRC spun off EarthScout as a new company and deployed the first 15 EarthScout beta units.
- EarthScout was incorporated on December 19, 2019.

We believe EarthScout was successful in achieving the goals as a General Benefit Corporation in the following ways:

- EarthScout is providing invaluable data to growers' real time - educating them on ways they can more effectively manage and reduce costly inputs including insecticides, fertilizer, water, while maintaining soils that produce healthier plants, higher yields and a better environment.
- EarthScout can be configured for any grower, any crop, and any environment – including grains (corn, soybean, wheat, etc.), orchards, vineyards, fruits, vegetables, turf & landscape, nurseries, greenhouses, and specialty growers (hemp, hops, etc.).
- Over 180 EarthScout units have been deployed in MN, ND, SD, IA, WI and VT and 20 deployed outside US. The units are gathering real time data for our researchers and growers to analyze. EarthScout is working with the growers to continually enhance our products for mass production.
- EarthScout has over 20 sensors for measuring conditions above and below the ground, and additional sensors are currently under development in our lab.
- EarthScout has assembled a team of leading precision Ag experts to further develop analytical and predictive tools
