More than one column or row may be used for the same office or party. Electronic ballot display and audio ballot readers must conform to the candidate order on the optical scan ballot used in the precinct.
 Subd. 5. **Alternation.** The provisions of the election laws requiring the alternation of names of candidates must be observed as far as practicable by changing the order of the names on an electronic voting system in the various precincts so that each name appears on the machines or marking devices used in a municipality substantially an equal number of times in the first, last and in each intermediate place in the list or group in which they belong. However, the arrangement of candidates' names must be the same on all voting systems used in the same precinct. If the number of names to be alternated exceeds the number of precincts, the election official responsible for providing the ballots, in accordance with subdivision 1, shall determine by lot the alternation of names. If an electronic ballot marker is used with a paper ballot that is not an optical scan ballot card, the manner of alternation of candidate names on the paper ballot must be as prescribed for optical scan ballots in this subdivision."
