Office of the Minnesota Secretary of State

Minnesota Public Benefit Corporation / Annual Benefit Report

Minnesota Statutes, Chapter 304A

Read the instructions before completing this form
Must be filed by March 31
Filing Fee: $55 for expedited service in-person, $35 if submitted by mail

The Annual Benefit Report covers the 12 month period ending on December 31 of the previous year.
Notice: Failure to file this form by March 31 of this year will result in the revocation of the corporation's public benefit status without further notice from the Secretary of State, pursuant to Minnesota Statutes, Section 304A.301

1. File Number

2. Corporate Name: (Required) Research and Development Laboratories General Benefit Corporation

3. The public benefit corporation's board of directors has reviewed and approved this report.

4. In the field below, enter the information required by section 304A.301 subd. 2 or 3 for the period covered by this report, (see instructions for further information): Note: Use additional sheets if needed. (Required)

See attached.

5. I, the undersigned, certify that I am the chief executive officer of this public benefit corporation. I further certify that I have signed this document no more than 30 days before the document is delivered to the secretary of state for filing, and that this document is current when signed. I further certify that I have completed all required fields, and that the information in this document is true and correct and in compliance with the applicable chapter of Minnesota Statutes. I understand that by signing this document I am subject to the penalties of perjury as set forth in Section 609.48 as if I had signed this document under oath.

M Doyle

RE: Annual Benefit Report of Research and Development Laboratories General Benefit Corporation

Our company pursued general public benefit with reference to an independent third-party standard, Impact Assessment, by identifying and researching global problems and solutions for sustainable development as well as how to maximize net-positive impact. B-Lab's Impact Assessment is being applied in a manner consistent with prior reports.

Activities that correlate directly with B-Lab's Impact Assessment include:

- improving environmental and economic efficiencies by using a better all-electric vehicle for our operations, LED lighting, composting, recycling, bamboo towels, and more
- improving the sustainability of our policies and procedures and material-use efficiency.
- improving the safety and health of our facilities, such as air filtration and air quality monitoring.

The main circumstance that hindered efforts to pursue or create general and specific public benefits was limited financial resources.

Regarding specific public benefits, we:

- improved our facilities with several machines to fabricate scientifically staged, working model experiments involving mechanical and structural systems for public benefit.
- conduct research and develop and test working models to increase the energy and resource efficiencies of imperfect mechanical and structural systems in use today:
    - Chassis and suspension systems to facilitate aerodynamically efficient vehicle design.
    - Energy efficient air/fluid handling technology.
    - Polyhedral structural systems for residential architecture.
    - Economical robotic systems to protect workers in hazardous occupations.

This annual benefit report was approved by our board of directors on 3/27/26.
